

# OMNI TH<sub>Q</sub> DIGITAL HANDHELD TISSUE HOMOGENIZER

The **OMNI TH<sub>Q</sub>** with Whisper Drive Technology™ is a powerful tissue homogenizer that can handle a wide range of samples from <200µL to 120mL.

It provides reliable, repeatable performance with an ultra-quiet brushless motor. An integrated digital speed control stores the last set speed for ultimate repeatability. Tissue samples are usually processed in less than 30 seconds.

The **Omni TH<sub>Q</sub>** operates with patented **OmniTip™ Plastic Generator Probes**, available in both soft tissue and hard tissue versions. Omni Tips are ideal for customers concerned about cross-contamination and carryover between samples. Stainless steel generator probes (5 mm to 10 mm diameter) are available for larger and tougher sample types. Specially designed hybrid steel/plastic probes are also available.

The **Omni TH<sub>Q</sub>** is an ideal fit for a wide range of applications from tissue homogenization and dissociation, PD/PK studies, tablet disruption, emulsions and suspensions, cell disruption, food samples and much more. Lightweight enough to be hand-held it may also be stand mounted for lengthier processing.
